

# The Gateway for Joint Action on a Green Energy Future

The Africa-EU Energy Partnership (AEEP) is Africa and Europe's **gateway** for **joint action** on a **green energy future**. With an unmatched overview of the political processes and initiatives across both continents, the AEEP maps, monitors and convenes the actions and stakeholders that drive the African and European energy transformation.

Providing a forum for **political dialogue, knowledge sharing** and **peer connections**, it enables Africa and Europe to make progress on their path to a sustainable energy future.
